Madison 6, Wisconsin

Dear Josh:

Welcome home! This is to remind you that, as soon as you get halfway settled, Henry Vogel and I would appreciate your mailing us the conjugation print and also a print of protoplasts and their proliferation (from the forthcoming J. Bact. paper).

I am planning to be in Madison on December 4 and 5, on invitation of Joe Wilson, and I am hoping that this will also provide an opportunity to see Esther and you.

With very best regards,

Sincerely,

A handwritten signature in dark ink, appearing to be 'W. Braun', written in a cursive style.

Werner Braun
